

# Handmaiden to Every Housekeeper

*A chemical discovery, in commercial form, which makes life impossible for deadly germs, moths and insects, and sterilizes the breeding places of flies and mosquitoes.*

## Preventol Does These Things:

### Kills Insects

Preventol is instant death to roaches, water bugs, bed bugs, and all insects. Sprayed into cracks and crevices, Preventol draws the insects into the open, where they die. If used regularly as a sanitary measure, insects will never again appear.

### Kills Moths

Sprayed on rugs, furs and clothes in storage, Preventol will absolutely kill moths and prevent the appearance of moths. Not injurious to the finest fabrics. Preventol is used by the largest rug houses and fur houses to keep moths out of rugs and furs in storage.

### Kills Germs

Preventol is used regularly for fumigation in hospitals. When sprayed about a sick-room, it will thoroughly fumigate the room, and in a most agreeable manner. Most effectually used in preventing the spread of influenza in the home. Ideal as a germicide in schools, banks and public buildings. Its pleasant odor makes it the most agreeable disinfectant.

### Kills Flies

When sprayed on garbage cans, in damp corners, on refuse heaps, Preventol will surely kill the fly in its breeding place. If sprayed in a room, with open window, Preventol will drive every fly outside. Preventol disposes of the fly problem in a most satisfactory manner.

### Kills Mosquitoes

If sprayed in damp corners and on stagnant pools, Preventol will absolutely prevent the breeding of mosquitoes. When sprayed about a room, with open window, Preventol will drive out every mosquito and keep them out for hours. Use Preventol in your bedroom just before bedtime, to rid yourself of mosquitoes.

### Kills Fleas

For pet animals, Preventol will kill fleas in a quick and pleasant way. Spray cats and dogs with very light spray and watch fleas fall off. Only a very light spraying is necessary.

### Kills Lice

On the farm, Preventol has a wide variety of effective uses. Sprayed lightly on poultry, hogs, cows and horses, Preventol instantly kills all forms of lice. Cows sprayed lightly with Preventol just before milking are not disturbed by flies for hours afterward.

**Preventol is non-explosive, non-injurious to humans, agreeable to the smell, and non-injurious to fabrics of any kind.**

In this new household product science has brought to the housekeeper the greatest aid to house-cleaning and sanitation that she has ever had. Inexpensive to buy, easy to apply, Preventol supplies the most convenient means of disposing for all time of the possibilities of invasion by pestiferous insects, moths, flies and mosquitoes.

**PREVENTOL**  
MAKES A CLEAN HOME

Harmless to human life, Preventol is yet fatal to the most deadly germ, and to all forms of troublesome insects. In new houses, Preventol will prevent the appearance of insects; in old houses Preventol will rid the house of insects instantly, and will keep them away.

Insects, flies and mosquitoes are the greatest carriers of disease. By disposing of this class of animal life, and killing germs wherever they may be, Preventol proves itself the greatest sanitary agent available for household use.

The odor of Preventol is agreeable. It smells clean. Use it in house-cleaning, and make your home free from germs and insects, as well as dirt.
